Fachhochschul-Studienzentrum Pinkafeld

9th International Summer School on Sustainable Buildings for Europe

Date: September 18 – 27, 2024

Location: University of Applied Sciences Burgenland (Pinkafeld Campus)

Explore the Future of Sustainable Technologies:

- Gain insights into renewable energy sources such as heat pumps, biomass, and photovoltaics.
- $\circ\;$ Learn about energy efficiency in buildings and ecological assessment of energy systems.
- Participate in practical sessions, laboratory work, and field trips to apply your knowledge.

Why Attend?

- Collaborate with international peers in project teams guided by experienced professors.
- Develop creative solutions to real-world challenges in sustainable building design.
- Network with industry experts and fellow participants from diverse backgrounds.

How to Apply:

- $\circ\,$ Eligible for science, architecture, and engineering students from partner universities.
- Apply for a CEEPUS grant to cover travel and maintenance costs.
- Registration deadline: June 1, 2024.

Language of instruction: English.

Join us!

Don't miss this opportunity to enhance your knowledge, skills, and network in the field of sustainable buildings. Secure your spot today and be part of shaping a sustainable future!

Fachhochschul-Studienzentrum Pinkafeld

Partner universities

- University of Maribor, Faculty of Electrical Engineering and Computer Science (Slovenia)
- University of Pécs, Faculty of Engineering and Information Technology (Hungary)
- Slovak University of Technology (Slovakia)
- Czech Technical University in Prague, Faculty of Civil Engineering (Czech Republic)

Requirements and evaluation

The summer school program includes approximately 60 teaching hours, and participants can earn 4 ECTS credits upon completion.

To qualify for a certificate upon completion of the summer school program, participants need to meet the following requirements:

- ✓ Attendance and participation in classes, workshops, and lab practices (50%)
- ✓ Final group presentation (50%)
